Subject: Thanks for wonderful music

To the staff of KCEE,

I want to say thank-you for the wonderful music. I started listening to your station just this past week and it has become very quickly the only station I am listening to. It is on in my office all day, in my car, and at home. Today I am especially thankful for the 8AM hour hymn time. I am having a great time trying to come up with the right artist and then checking your web site. It is interesting to see how often I am right. I have been telling all my friends about your station. I have never worked in radio, but I hope working and playing and listening to this music is as much of a joy for you as it is for me just to listen to, Thanks again and keep up the great work.

Jim,

I return to Tucson every six months for flight training and just found your station, 1030 am KCEE. Great format you may have already found the hole you are looking for, for the station. There are alót of us who fit into this category.

What would it take for the station to be available over the internet?

I come back in October, but would like to listen to the station when I'm home in Arkansas.

I just turn off the TV and listen while I'm studying.

Enjoying and looking forward to listening when I return.

Thanks,

I love your new station. I love the music and the very little chatter. But there is one thing that bothers me. Your station seems to have a slight undertone or constant static. Hopefully that can be corrected. Otherwise you are great and I enjoy listening to you, if only I can get rid of that undertone. Have tried couple different radios, all the same. Other stations are clear with no undertone.
Keep up the great work.

We (my spouse and I) love your station! You seem to play more music with less interruptions than the other "oldies" stations. The only complaint we have is there is no song and artist titles at the beginning or end of the music. Also, is there any plans on changing to digital in the future? Thank you for the memories!

I love the station. I can get it in loud and clear in the kitchen. Don't think Sierra Vista is geared up for AM.

Thank you and your staff, and of course Jim slone, for your music. I'm 65 and grew up on this music, and old country & western. Too bad that he sold KCUB. I used to listen to KSVA , Marana-Tucson. But they got too big and greedy with an overabundance of commercials and now is called the Marana-Tucson-Phoenix station. Since this happened, they now boast one and two hour time slots in the mornings for an infomercial selling snakeoil. Of course they call this a health program. Ridiculous. KIIM-FM is fair but I really don't like the modern country music because the bands are playing rock. I hate rock, but I love rock roll. I tuned to your station just to see what it was like, about 2 months ago. I'm still with you. Great music, no unnecessary chatter, and very few idiotic/assinine commercials.

Please keep up the good work. By the way, If I spelled Jim's name wrong in the first line, my apologies.

My husband and I have bumped into KCEE 1030 one night and have not moved from there since. We enjoy the wonderful cross section of music, but we especially love the Sunday morning worship songs from 8 to 9. We listen as we get ready to go to the church and your wonderful selection puts us in the right mood for as we go to church.

Recently, I thought I heard on your radio station as I was driving in that you have a community announcement calendar, but when I went on the website could not find it. Do you? IF so, where can I locate it. I am the secretary for an ethnical club and since most of the people we have enjoy the same type of music you play, we would like to put a notice there about our monthly (Sept to May) meetings.

Only one flaw (well two if you count the heart stopping off the air period Tuesday night), if I need weather or traffic I have to switch to a different station. But I promise I'll switch back as soon as possible.

I use to want satellite radio. Now I'm happy without it. I tell everyone I can to give you a listen.

Dear Ms. Green,

Several months ago I read an article in the Tucson Weekly that indicated Jim Sloan was getting bored with retirement, frustrated with syndicated radio and had purchased KCEE. Figuratively that was music to my ears. I'm a native Tucsonan and grew up listening to KMOP, KHOS, KTKT, and KCUB. Jim Sloan was a prominent player in radio in Tucson during those years.

I was able to locate KCEE and have been listening over the past couple of months. The selections you play are great. A wonderful mix with little repetition. With the few ads, I wonder how you're able to stay afloat but their lack certainly enhances my listening pleasure.

As a youngster, I listened mostly to C&W but as I've matured I've grown to appreciate good music of most any genre (except rap & heavy metal which I don't classify as music.) I am familiar with and really enjoy about 90% of the songs played on KCEE. I really value the fact that KCEE is locally owned & operated, not a piece of a syndicate with repetitious music.

Until finding KCEE, I've enjoyed listening to KAVE in Benson, another locally owned station that plays good music irrespective of Billboard's top ten list.

Welcome back Jim. Thank you so much and keep playing that great music.

I haven't heard my favorite singer, John Gary. John has a three-octave range; a voice like no other. You should hear him sing, "Softly", "Once Upon a Time". It brings tears to my eyes. My husband and I have just recently found your station and we keep our "dial" tuned to your station all day long. What a great find!!!

We are retired and live in the Northwest side of Tucson, AZ. We especially like the music from our era, which is the 30's, 40's and 50's (like the 20's too!) and your station covers it all! We especially like Dick Haymes, Frank Sinatra, Vic Damone and Bing Crosby and we hear a lot of them on your station. It can't get any better than that! The good old boys and the good old days have returned to the airwaves!!! Yippee!

We enjoy sitting in our easy chairs with our feet up just listening, AND since you don't tell who is singing, we have a private "contest" to see who can "**NAME THAT TUNE**" OR "**NAME THAT SINGER**"! It's fun. What's really surprising is the wonder of the brain, the original computer, that somehow has stored all the words to all the old songs (that we haven't heard in 50 to 60 years) and we can sing along! Now, that's fun!

Well, we just wanted you to know how very special we think it is to have such a fantastic music station on our radio. It's so pleasant and soothing compared to these other stations that blare and blast all sorts of "noise" that some call music!

Most sincerely,
Mr. and Mrs. Gene North
